# SOW LAWNS THIS FALL

To build a new lawn or to repair an old one—the frequent rains, the shorter days, and the cool nights of fall are ideal. Grass seed germinates quickly and grows vigorously. In planting Connecticut lawns, use CONNECTICUT SEALED GRASSES of guaranteed analysis.

We carry these grasses exclusively. Only grasses that come up to Connecticut's rigid standards can receive the State seal.

*For quick vigorous growth (new seeding), sow 1 pound of grass seed to 200 square feet. For re-seeding old lawns, 1 pound to 400 square feet.*

**GOLD SEAL** Recommended for reseeded old turf and new seeding where careful preparation and extra care will be taken. Composed of the very highest quality Kentucky Blue Grass, Chewing's Fescue, Astoria Bent and Red Top, in proper proportion to make the finest velvety turf.

1 lb. 90¢, 5 lb. \$4.25  
25 lb. \$20.00, 100 lb. \$80.00

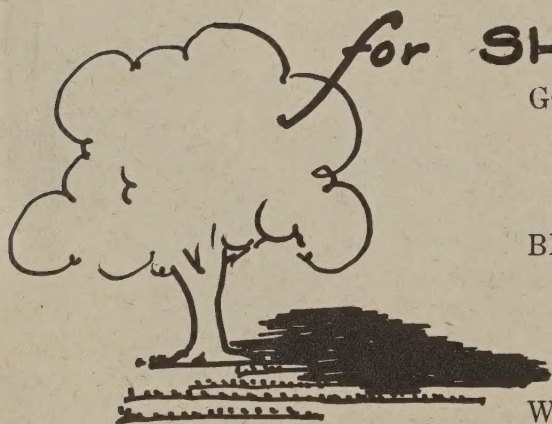

**BLUE SEAL** Our most popular high grade mixture, best for general use. Composed of the same grasses as our Gold Seal mixture with the addition of White Dutch Clover and Domestic Rye Grass. Grows quickly and produces a really fine dark green permanent lawn.

1 lb. 80¢, 5 lb. \$3.75  
25 lb. \$17.50, 100 lb. \$70.00

**RED SEAL** A mixture of good quality at a moderate price. Contains all of the grasses in the higher priced mixtures, but in different proportion. May be planted with confidence that an excellent lawn will result.

1 lb. 70¢, 5 lb. \$3.25  
25 lb. \$15.00, 100 lb. \$60.00

**WILD WHITE CLOVER** Vigorous and hardy dwarf white clover, darker green and more permanent than the White Dutch. This strain makes it possible to maintain a beautiful dark green clover lawn without the usual patchy effect. Sow only 1 lb. to 5000 sq. ft. Helps to combat crabgrass. 1/4 lb. 75¢
